Don Hall is currently on tour promoting his book, *The Regeneration Handbook: Transform Yourself to Transform the World*. He has served in a variety of capacities throughout the international Transition Towns Movement over the past 15 years, first as Education & Outreach Coordinator for Transition Colorado, then as Founder and Executive Director of Transition Sarasota (Florida), and Executive Director of Transition US. He is currently Training Coordinator for the International Transition Network.

Greg Marquez is an 85 year old Artist with a daily commitment to telling a new story for humanity. Through land stewardship, community support, writing, art, gratitude, and friendship, he is supporting humanity's evolution towards its next stage, one that embraces maternalism, compassion, and caring as paternalism fades into a supportive role. He is a longtime part of Transition Pasadena and has graciously offered his home and creative space for this event.
